

## Open Tender

### for maintenance and management service

### Online CPA data platform

WeWorld is an independent Italian organisation active in 27 countries, including Italy, focused on projects concerning Development Cooperation and Humanitarian Aid to guarantee the rights of the most vulnerable communities, especially women and children.

For more information visit <https://www.weworld.it/en>

Since 2013, WeWorld is implementing the Community Protection Approach (CPA), a mixed method to assess protection risks in protracted crises and complex emergencies scenarios with the objective of formulating integrated protection programs together with the affected population, while supporting the coordinated mobilization of multi-stakeholder and multi-sector efforts to prevent and respond to protection risk and enable opportunities to ensure safety and dignity of lives.

The entire CPA process is facilitated, systemized, and centralized through the CPA Platform, a digital multi-stakeholder solution providing ongoing and up-to-date analysis. It was designed to address historical shortcomings in conducting continuous analysis, as well as data management and quality control; while ensuring adaptability to organizational and research needs, ensuring all standards of Data Protection, following the EU's General Data Protection Regulation and the ICRC Handbook on Data Protection.

The subject of this tender procedure is the execution of the following service:

maintenance and management of the CPA data platform. From mid-September to mid-December 2021, the supplier will be asked to be on retainer for the duration of the contract to provide changes and updates to improve the interaction of the different stakeholders with the platform and the creation of new functions. The supplier will be provided requests and documentation on changes and new features that need to be implemented in the platform, and will provide an hourly estimation for each separate component.
