Participants	
Female:	44
Male:	13
Non-binary:	0
From Austria	57
Total number of participants:	57
From total number of countries:	1
Description	
<i>Provide a short description of the event and its activities.</i>	
This activity was carried out from January to March 2023 in different cities in Austria. Instead of doing one event, Südwind decided to split the groups in order to find teachers who want to participate in the project's activities, but also to present them the idea of Youlead. Not all of the participants decided to	

implement the workshop and debate contest in their school / work environment. However, we did find teachers who are now working on climate justice and debating.

Agenda:

- Presentation of the project, its partners, target group, objectives
- Introduction into Südwind's climate justice and youth work
- Introduction into debating as a method
- Further steps including national teacher training on climate justice, youth participation and debating
- Q&A, hand out of information sheets & contact

Most of the participants had not been familiar with the topics and we used this opportunity to show them the benefits of the debating method when it comes to climate justice and youth participation work.

Those who showed more interest were invited to a second (additional) meeting to get even more information and go more in depth about our approach and what is also expected from the participating teachers.

After these local meetings we collected the date requests of the class teachers and started to plan the individual Debate activities, in the province of Salzburg as well as in Vienna and Lower Austria. They will be carried out starting in March.
